

8. My favorite thing about this challenge was when we got to taste our snack because we worked hard on making it, and it tasted very good.

9. If I did this again I would make more because we did not have that much. Also I would put more honey so it would stick better.

⑧ my favorite part was mixing and eating it
I thought it tasted really good.

⑨ I would put more honey and I
would of smashed the chocolate. And more
peanut butter, I feel if we had a fridge
and a mold for the bar.

8. My favorite part of the challenge was just rushing to get every thing done. Hurrying, going crazy, it was so fun!

9. I would take exact measurements and record if we added more. In the end of the project I wasn't sure how much we had used.

Name Genevieve Chin

Challenge Reflection

Engineering Challenge title Healthy snack challenge

How did I do?

1. I had this group job for this Challenge. (circle one)

Speaker

Timekeeper

Materials Manager

Recorder

2. One way I did my group job was:

I got the ingredients for our snack.

3. One way I helped design or build the product was:

I helped shape the snack.

How did our group do?

Rate your group as a whole. Circle a number: 1 is low, 5 is high.

4. Working together

1 2 3 4 5

5. Using time

1 2 3 4 5

6. Using materials

1 2 3 4 5

7. Choose one of your ratings. Explain why you rated your group the way you did.

I rated using time as a 4 because if we had more time we could've done better

How did the Challenge turn out?

Answer questions 8 and 9 on the back of this sheet.

8. What was your favorite part of this Challenge? Why?

9. If you did this Challenge again, how would you change your product? Why?
